

How a Good Design Becomes a Great User Interface

Whether you are creating a new product display or giving your current product a face-lift, Altia offers a complete solution—with software and services—for getting first-class embedded graphical user interfaces (GUIs) from concept to production quickly and efficiently.

**Altia designed into
100M+
devices worldwide.**

- Over 30 years of GUI development industry leadership
- Prototype and deploy to any hardware target or OS
- Reduce hardware cost by optimizing memory and performance
- Break down collaboration barriers with model-based development process
- Slash development time with design-to-deployment automation
- Kickstart your GUI project or scale up development team with Professional Engineering Services
